

# Office for Life Sciences

## Office for Life Sciences Bulletin – 20 February 2020

### **OLS Introduction**

The Office for Life Sciences (OLS) is a joint unit between the Department of Health & Social Care (DHSC) and Department for Business, Energy & Industrial Strategy (BEIS).

This bulletin aims to keep the life sciences sector up to date on the latest guidance whilst the UK is in the transition period, providing you with important information from Government to help your members and networks prepare for the end of the transition period.

If you would like to be added to the distribution list, please email [anisha.visram@beis.gov.uk](mailto:anisha.visram@beis.gov.uk).

### **Points Based Immigration System**

The Home Office has this week released further information regarding the UK's immigration regime following the end of the Transition Period on December 31 2020.

The new system will welcome the most talented people from around the world and restore public trust in our immigration system. Free movement will end on 1 January 2021, and we will introduce a single global immigration system which prioritises the skills people have to offer and how they will contribute to the UK's economy, not where they come from.

Please find the full policy statement and further information [here](#).

If you're an employer planning to sponsor skilled migrants from 2021, and are not currently an approved sponsor, you should consider [getting approved now](#).
